

Comparative Chart of Pharmaceutical Manufacturers' Drug Discount Cards

Last update 6/17/04

Starting June 1, 2004 Medicare recipients who do not have out patient prescription drug coverage through Medicaid are eligible for Medicare-approved discount cards. These cards may have annual enrollment fees of up to \$30 and offer a discount of the drug's retail price.

If your annual income is no more than \$12,569 for a single person or \$16,862 for a couple, you may also be eligible for a \$600 credit to help pay for your prescription drugs (limits are higher in Alaska and Hawaii). You may also be eligible for more substantial discounts off the retail price of certain medications due to your lower income.

For more information, visit www.medicare.gov or call 1-800-MEDICARE (1-800-633-4227).

All of the Pharmaceutical Manufacturer Drug Discount Cards described in the chart below require that applicants be Medicare recipients and have no other prescription coverage. These drug discount cards have no enrollment or annual fees.

Program	Prescriptions Covered	Annual Income Below <i>(For households of 3 or > people, there may be higher income limits)</i>	Benefit	Contact & Misc. Info.
