

UPON ENROLLMENT, AN ULTRACARE GUIDE WILL:

- Partner with your enrolled patient and will remain dedicated to that patient
- Contact the patient or caregiver to review insurance coverage and support programs
- Assess the patient's eligibility for available financial assistance programs

STEPS TO SUCCESSFUL ENROLLMENT IN ULTRACARE

Below are the most critical steps for ensuring complete and timely enrollment so that your patients can fully benefit from the UltraCare Program:

1 GET STARTED

Select the preferred method of communication between the UltraCare Guide and the patient/caregiver

2 SELECT SITE OF CARE (SOC)

Choose the SOC for the administration of the medication:

- Home infusion with the home health nursing assistant
- · Prescriber's office administration
- Outpatient hospital setting

3 VERIFY INSURANCE

- Provide a copy of all the patient's MEDICAL and PRESCRIPTION cards, front and back
- Indicate if the patient does not have health insurance (both medical and pharmacy)

4 SPECIFY PRESCRIPTION

- Be sure to check the box for the appropriate ICD-10-CM code for the diagnosis
- For commercial prescriptions, identify the patient's weight and date when it was taken, as well as the number of refills being requested
- This is a true prescription—a physician's wet signature and date are required

5 REQUEST INFORMATION

You can request more information about a variety of services and resources offered by Ultragenyx:

- Marketing and educational materials
- UltraCare patient services
- Consideration for future research projects

6 OBTAIN CONSENT

The patient's signature is required to allow protected health information (PHI) to be shared by third parties with Ultragenyx to facilitate access such as:

- Disclosure of information
- Benefits investigation
- Prior authorization
- Specialty pharmacy provider prescription transfer
- Home infusion agency
- Additional services provided by UltraCare, including insurance coverage, financial assistance, and patient support programs

If the patient wants to opt out of the patient consent section, inform the UltraCare team verbally on the phone or in writing to the address on the reverse side of this page.

ICD-10-CM, International Classification of Diseases, Tenth Revision Clinical Modification.

Please see accompanying full Prescribing Information, including the BOXED WARNING, for a complete discussion of the risks associated with MEPSEVII.

Mepsevii (vestronidase alfa-vjbk) Injection, for intravenous use 10 mg/5 mL (2 mg/mL)
